

Under the High Patronage of
Mr Emmanuel MACRON
President of the French Republic

#ColloqueUFE 2018

**29
Nov
18**

Pré-programme

**Light up
the Economy !**

When cooperation becomes the key to success

Union Française de l'Électricité

MORNING

9:00

OPENING

Edouard PHILIPPE*, Prime Minister of the French Republic

9:30

**« EUROPE 2019 » -
How to start anew? :**

Less than 6 months before the European elections, the energy sector gets mobilized to propose concrete improvements to the electricity markets to finance the energy transition!

10:30

KEYNOTE

When the focus is put on consumers

11:00

**WIDE ANGLE : And the others, how do they do? When
transformations call for a tighter cooperation...**

Between energy challenges and digital revolution, the cooperation across sectors becomes a necessity to preserve added value and technological leadership

12:15

CLOSING SPEECH OF THE MORNING

Christine GOUBET-MILHAUD, President of UFE

AFTER-
NOON

14:30 **OPENING INTERVENTION**

15:00 **ROUNDTABLE - When mobility rhymes with electricity**

How do industrial sectors cooperate to imagine tomorrow's transports? « 100% electric vehicles » in 2050, is it feasible? Shared, autonomous vehicles, what if these were the real revolution? How does the convergence between these mutations and the transformations of the electricity production fleet and the networks work?

16:00 **OVERLAPPING PERSPECTIVES**
Let us talk about jobs and skills

16:30 **ROUNDTABLE - Buildings, regions and energy: all partners to better consume!**

Energy performance, climate performance: where are we with « E+C label »? Energy efficiency, what are the priorities to finance? Digital home notebook, energy data, IoT: what kind of information sharing for a smarter building?

17:30 **BIG CLOSING DEBATE**
Sébastien LECORNU*, **State Secretary to the Minister of Ecological and Inclusive Transition**

CEOs of the energy sector
